Destination Highlights

Tokyo

One quarter of all Japanese live in Tokyo or the near vicinity and with a population of over 12 million inhabitants, Tokyo is one of the largest cities in the world. With its huge skyscrapers, underpasses, overpasses and crowds of pedestrians, Tokyo may not seem the most attractive city on the surface, but the city has a vibrant charm all of its own. The street level detail is what makes Tokyo such an incredibly interesting place to explore and at every turn you will be met with an array of sights, sounds and smells to enliven the senses. The city has many major sights to visit such as Senso-ji Temple in the old downtown area of Asakusa or the fashion hub of Shibuya from where all new trends are said to emanate. All in all a stay in Tokyo is to experience one of the world's most vibrant and interesting cities; a capital hurtling headlong into the future whilst maintaining its links with the traditions of ancient Japan.

Toba & Ise

Toba, located at the north-eastern end of Shima-hanto Peninsula in Mie, flourished as the castle town of the Kuki family who ruled this region from the 17th century. It was also a landing spot for visitors on the sea route to Ise-jingu Shrine and belongs to Ise-Shima National Park. Ise Shrine is Japan's most sacred shrine dating back to the 3rd century. It is considered to be the spiritual home of the Japanese and its national religion Shinto. There is the Outer Shrine Geku and the Inner Shrine Naiku. The inner shrine is dedicated to the worship of the sun goddess with the outer shrine dedicated to the goddess of agriculture and industry. The Naiku and Geku are rebuilt every 20 years as a part of the Shinto belief of the death and renewal of nature and as a way of passing building techniques from one generation to the next. The best time to see the rocks is at dawn during the summer, when the sun appears to rise

between them. Mikimoto Shinju-to Island, Iruka-to Island and many other islands are in Ise Bay. Pearl Bridge connects the town and Mikimoto Shinju-to Island, the place where Kokichi Mikimoto succeeded in culturing pearls for the first time in the world in 1893. There is a model factory and a Pearl Museum on the island and visitors can watch the processing of pearls and an ama, or a woman diver, diving.

Nara

Nara is renowned for the wealth of its Buddhist and Shinto heritage. Nara was formerly the end of the Silk Road and was for this reason the area which first saw Buddhist teaching making the transition across the ocean from China. The daibutsu or big Buddha is hugely impressive as is the huge wooden structure which houses it, to this day the world's largest wooden building despite the current structure being a third smaller than the original. The myriad of shrines and temples are all set against the backdrop of the low lying mountains and in the midst of Nara Park, which is famously home to a vast population of pesky deer. Given half a chance they'll happily munch on your guide books, umbrellas,

scarves, and about anything else they can get their noses into! You can also buy official deer cookies to feed them with but do so at your own peril!

Koyasan

Mount Koya (known as Koya-san in Japanese) is one of the holiest mountains in all of Japan and the plateau at the top is home to more than 100 temples and monasteries. Koya-san is the headquarters of the Shingon sect, an esoteric school of Buddhism which has over ten million members and 4,000 temples in Japan. There has been a religious community here since 816 when it was founded by a monk named Kukai after he returned from studying for two years in China. Koya is a very peaceful and beautiful wooded area and some great walking is also available. The atmosphere is truly magical and I am sure you will find this a lovely place to unwind.

Iya Valley

The Iya Valley is considered one of Japan's three 'hidden regions' and when you see the terrain you will appreciate why! Set deep in the heart of Shikoku the area is made up of narrow river gorges and steep mountain peaks, covered in thick vegetation. The isolated location of the Iya Valley and its inhospitable terrain made it a favourite hideaway for defeated clans and exiled political dissidents in days gone by. Today modern engineering has opened up the area to cars and trains, but even so you will still get a very good idea of the true nature of the valley as the narrow roads wind their way around the edge of hillsides and tunnels bore straight through previously impassable mountains. Although now more accessible the Iya Valley remains very rural and very traditional making it a fantastic place to appreciate a side of Japan very different to the bright lights in the big cities. Activities in Iya include boat trips along the river, crossing the vine bridges (for the daring!) that once served as quick escape routes for fleeing armies, as well as simply taking in the wonderful scenery all around you.

Kotohira

Kotohira is a relatively unheard of little pilgrim town in Shikoku, the smallest of Japan's four main islands. It is home to Shikoku's most popular shrine and pilgrim destination, Kōmpira-san whose main hall stands at the top of almost 800 steps, making for a challenging but rewarding ascent! Kotohira also houses the Kanamaruza which is Japan's oldest surviving, complete kabuki playhouse, built in 1835 which is still infrequently staging kabuki performances. Although a popular destination for Japanese visitors, Kotohira is very much off-the-beaten track for overseas tourists, and the town retains a very sleepy, rural, laid-back feel to it, especially in the evenings when the day-trippers have headed home, and the streets are empty.

Takamatsu

Takamatsu is the largest city in Kagawa Prefecture in the northeast corner of Shikoku island. Takamatsu faces the Inland Sea and has a long history as a port, acting as something of a link between Shikoku and the main island of Honshu. The city's top attraction is Ritsurin Koen, one of Japan's finest examples of a landscape garden, considered by many to be on a par with the famous 'Big Three' gardens of Mito, Okayama and Kanazawa. Also of interest are Yashima, a flat-topped mountain and nearby Shikoku-Mura, a collection of traditional houses and other buildings brought from all over Shikoku to display local architecture and construction techniques.

Naoshima

Naoshima could easily be another pretty but forgotten island in the Seto Inland Sea scraping a living from fishing. However a unique art project has given Naoshima its deserved global reputation. Naoshima is home to a large collection of contemporary art galleries, exhibits and installations which offer a tour de force of architectural expression integrating art and the natural environment. Two of the main galleries, the Chichu Art Museum and Benesse House, were designed by the world famous architect Tadao Ando and feature works by Claude Monet, Walter de Maria, James Turrell, Andy Warhol, Richard Long and Bruce Nauman among others. Distances between the main art sites are small and the picturesque island can be explored on foot or by bike.

Kyoto

Oozing with tradition, Kyoto is the ultimate destination for anybody who wants to soak up time-honoured Japanese culture. Home to 17 UNESCO World Heritage sites, over 1,600 Buddhist temples and 400 Shinto shrines, this ancient city showcases the heart and soul of traditional Japan. Kyoto boasts an array of world-class gardens, majestic festivals and delicate cuisine, all of which make much of the rhythms of nature and the changing of the seasons. On first glance however, visitors will see that like any large Japanese city, grid-like Kyoto has its fair share of neon and concrete. But the discerning eye will soon pick out Kyoto's treasures: sacred shrines tucked in among shopping arcades, time-honoured

teahouses nestling among modern businesses and mysterious geisha scuttling down backstreets among the tourists and souvenirs. Kyoto's charm lies in these details and whether you're here for three days or three years, the closer you look, the more you'll discover.
